ARRIVAL AUTHOR TRIDENTO MOROGRAPHS

Monthly Index of Russian Accessions

Volume 22, No. 2

February 1969

THE LIBRARY OF CONGRESS
WASHINGTON: 1969

INTRODUCTORY NOTE

The MONTHLY INDEX OF RUSSIAN ACCESSIONS* is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included.

The MONTHLY INDEX consists of four parts. Part A lists monographic literature, but no accessions published earlier than 1980 are included. To facilitate the use of this INDEX by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals received, but excludes accessions printed earlier than 1960. Tables of contents in English translation are provided for most periodicals listed.

Part C provides subject analysis of the articles appearing in the periodicals enumerated in the List of Periodicals Indexed and Abbreviations Used at the beginning of Part C. The number and letter in parentheses following each abbreviation indicate the class and subclass in which the periodical appears in Part B.

Sample title: Some data on lung-to-heart reflexes in amphibians. A. E. Alekseev. Biul. eksp. biol. i med. 54 no. 12: 18-22 D '62.

Explanation: An article with title given above in English translation, written by A. E. Alekseev, will be found in the December 1962 issue of Biulleten' eksperimental'noi biologii i meditsiny, vol. 54, no. 12, pages 18-22.

Beginning Volume 21 No. 1 (April 1968) the subject headings previously used in Part C are replaced by classes based on the Universal Decimal Classification. Beginning Volume 22 No. 2 (February 1969) the Universal Decimal Classification classes also replace the subject classes formerly used in Part A. A guide to the classes used and an alphabetical index to the names of these classes is to be found before Part A of each Monthly Index issue.

Part D lists monographic works recently cataloged by the Library of Congress in English or in the major Western European languages (French, German, Italian, Spanish) on Russia or the Soviet Union, or by Russian or Soviet authors. Each listed monograph is followed by the Library of Congress call number and by the printed L. C. card number.

In Parts B and D the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves () around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

Cumulative author, subject, and periodical location indexes to the first four volumes of the MONTHLY INDEX are available as separate publications. Beginning with Volume 5, an author index to the monographs, and a periodical location index for the entire volume are furnished as appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington, D. C. 20540

The MONTHLY INDEX OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402

Single copy prices vary; subscription price, \$28.00 a year domestic, \$5.75 a year additional for foreign mailing.

L. C. card, 48-46562

^{*} Volumes 1-10 (No. 9), 1948-1967, issued under title Monthly List of Russian Accessions.

Berhovich, IA. G. - Normal divisors of a finite

Berhovich, M. G. - Hormal divisors of a finite group. p. Mf. Culfind, R. L. - Analytic representations of a com-plete linear group over a finite field. p. SR. Gronov, M. L. - Trunsversal mappings of foliations. p. MG. Rogan, L. A. - Theory of modular forms and the problem of finding formulae for the quantity of

- praestrations of sumbers by positive quadratic forms. p. 389.

 Korsknare, A. D. Number, distinguishability, and diameter of commutable solomata and operators resilized by the m. p. 342.

 Middiskov, V. M. Orisoned quest-conformal mappings in agace p. 268.

 Pasynkov, B. Factorization of snappings onto metric spaces. p. 268.

 Barymakov, T. A., Kochkarev, IA. Kh. Law of therated logarithms. p. 372.

 Fastorizat, V. Bicompacts with divergent dimensionality. p. 278.

 Therate, V. A Topological structure of space in ratalitistic mechanics, p. 278.

 Install, F. A. Topological structure of space in ratalitistic mechanics, p. 278.

 Install, M. N., Shokin, IU. L. Approximation viscosity of difference schemes p. 280.

 CTREMBETICS AND REGULATION THEORY Unichov, E. S. Asymptotic properties and approximation of stochastic adocational models. p. 332.

 MCCHARICS.

 Aslanov, J. K., Dodxforeskii, V. N., Sachelkia, K. L.
- MECHANICS.

 Asimov, S.K., Budzirovskii, V.N., Sachelkin, K.L., hattailiky criterin of detonation waves, p. 285.

 Aleksev, B. V. Transport phenomena in reacting gassous authores, p. 288.

 Saraf, Sh.G., Budnikovs, N.A. Fhotvations in solar radiation hitting the earth caused by secular variations in the elements of the earth's critic, p. 28.
- p. 340.
 MATHEMATICAL PHYSICS:
 Krasuurich, P. R., Beschatov, R. B. Use of the impedance scaling method is calculating the wave remners of sommet waves in spherically stratified Kranushidin, P. E., Bulinhatov, R. B. - Use of the impedance scaling method in calculating the wave numbers of normal waves in spherically stradified autocropic media. p. 294.
 BERRICO,
 BERRICO, J. P., Kotanck, V. V., Rabevskii, V. V. - Statistical equation for a crystal particle in the nodal region. p. 398.
 Verashchagha, L. P., and others. - Effect of high static and dynamic pressures on aluminans offride p. 301.
 Verconcy, F. F., Grigor'ev, S. B. - Effect of pressures up to 100 killobars on the velocity of scand is aliver chlockide p. 304.
 Vursor, V. D., Kirlchenko, V. N., Potrisnov, L. V. - Change of alpha-active serosols due to secondary electron emission. p. 307.
 Karpukkin, O. N., Kozhasiner, M. A. - Estorgy transfer by virtual excitation of molecules of the meritum. p. 310.
 Michight, A. P., Zhurnisovskii, E. A. - Mechanism underlying the aquestrance of the Kag-line in the X-ray spectrum of 3d-motals. p. 313.
 Pakrowskii, L. A. - Application of an unbalanced statistical operator in the theory of energy exchange between two subsystems. p. 317.
 Rozmov, Y. B. - Possible characteristics of a breensstrakhung source for inner pumping. p. 320.
 Blookese Statistical signag model. p. 322.
 Shadiskovich, K. P. - Equation describing motion within the laser centrally symmotrical field in the general theory of rolativity. p. 336
 TECENICAL PHYSICS
 Gallperina, R. M. - Physical foundations and prospecting potestialities of the method of alberoating waves according to crediting contents.

- Cal'perina, R. M. Physical foundations and pros-pecting potentialities of the method of alloresting waves excurding to vertical sets mic profiling data. n. 234
- waves according to vertical science profiling data p. 314.
 CHEMISTRY:
 Bernsey, ID L., and others. Beactions of elementary phosphoros with dihabido derivatives. Direct synthesis of anyleochie (fichiorophosphines).
